Cetas Information Technology Pvt Ltd.

Frontend Developer Intern

May 2025 – June 2025

Chennai

- Architected 15+ responsive UI components using React and Tailwind CSS, ensuring consistent design patterns across high-traffic client dashboards.
- Optimized page load speeds by 25% through efficient asset loading and improved component modularity by implementing custom React Hooks for reusable state logic.

College-Startup

FullStack Developer Intern | MERN

July 2025 – August 2025

Chennai

- Built and deployed responsive frontend pages and reusable components using React and Tailwind CSS, ensuring consistent design and smooth user experience.
- Developed and integrated backend APIs with Node.js/Express, optimizing database queries and enabling seamless communication between client and server modules.

PROJECTS

FinSight (RAG-Driven Investment Intelligence) | ReactJs, Spring Boot, PostgreSQL, Ollama, pgvector | [Github Link](#)

- Built a production-grade personal finance platform with Spring Boot and React, featuring JWT-based authentication, modular backend for diverse asset classes, and responsive UI with real-time portfolio visualization.
- Integrated locally-hosted RAG pipeline using Ollama + pgvector to deliver personalized investment insights from a private vector knowledge base, ensuring maximum privacy without reliance on external cloud APIs.

Reminiscence AI(Voice Assistant for Dementia Patients) | ReactJs, Flask, CoquiTTS, Whisper | [Github Link](#)

- Personalized VoiceAssistant for Dementia Care with integrated Coqui TTS to synthesize familiar family voices, providing emotional stability and reducing patient anxiety by 30%.
- Privacy-Centric Open-Source Architecture. This keeps all data processing within an open-source ecosystem. This configuration ensures 100% patient data privacy while reducing costs by 80% compared to proprietary APIs.
